DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1, 2, 4, 6-9, 12 and 13 have been considered but are moot in view of the new ground(s) of rejection.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 2681

3. Claims 1, 2, 4, 6-9, 12, 13 and 15-25 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,728,353. Although the conflicting claims are not identical, they are not patentably distinct from each other because both inventions are drawn to an interactive voice response system for pre-paid wireless services comprising: a peripheral device in communication with a mobile switching system, the mobile switching system capable of communicating with at least one wireless, an IVR application on the peripheral device comprising a menu driven system adapted to receive information from a customer.

4. Claims 1, 2, 4, 6-9, 12, 13 and 15-25 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,748,066. Although the conflicting claims are not identical, they are not patentably distinct from each other because both inventions are drawn to an interactive voice response system for pre-paid wireless services comprising: a peripheral device in communication with a mobile switching system, the mobile switching system capable of communicating with at least one wireless, an IVR application on the peripheral device comprising a menu driven system adapted to receive information from a customer.
